VOL. XXVI, NO. 85 GAINESVILLE, FLORIDA, SUNDAY, MAY 16, 1909 TEN CENTS A WEEK

THE CLOSING EXERCISES GAINESVILLE HIGH SCHOOL

Literary Society Program for Thursday Evening, Graduating Exercises the Following Evening.

Although the Gainesville High School will not close until Monday, the 25th of this month, the commencement exercises will take place next Thursday and Friday nights. This arrangement is made to avoid a conflict with the commencement exercises of the University, which will be held in the High School Auditorium.

On Thursday night the High School Literary and Debating Society will give an entertainment, the program for which is as follows:

1 Piano solo, "Second Valse," (Godard)—Isabel Padgett.

2 Essay, "Queen Elizabeth"—Agnes Spencer.

3 Piano duet, "Les Chasse Aux Gazelles," (Calvani)—Mary Thigpin and Lottie Scarborough.

4 Recitation, "The Flying Machine"—Mary Dawkins.

5 Piano duet, "Impromptu a la Houglois"—Eloise Douglass and Clara McDonald.

6 Debate, "Shall the Solid South Be Broken?—Affimative, Joe Swanson, Sidney Godwin; negative, Frank Swanson, Earle Kelley.

7 Chorus, "Blow Balmy Breeze," (Wagner).

8 Comedy, "Burglars"—Fletcher Ellis, Clarke Evans, Katie Barrs and Mabel Lamons.

Although the young people who are to take part in these exercises have had but little experience in society work, some of them only during part of this term, each will perform his or her part with credit. Three of the debaters are sophomores and one is a junior. They have worked hard in the preparation of their speeches and considering their ages and experience they have done well.

Graduating Exercises.

The graduating exercises, which will take place on Friday night, will be as follows:

1 Invocation—Rev. F. R. Bridges.

2 Chorus, "Voices from the Woods," (Rubenshein).

3 Piano solo, "Home, Sweet Home" (Thabberg)—Francis McDowall.

4, Oration and Salutatory, "The Development of the Drama"—Casper Peeler.

5 Class Prophecy—Ruth Doig.

6, Piano trio, "Grand Galop Brillant," (Wallenhaupt)—Isabell Padgett, Lucile Glass and Mary Thigpen.

7 Oration and Valedictory, "Edgar Allen Poe"—Ethel Durst.

8 "Piano solo, "Concert Polonoise," (Englemann)—Margaret Merchant.

9 Presentation of Diplomas—Principal W. H. Cassels.

10 Chorus, "Swing Song," (Frederic Lohr.)

11 Address—Dr. Andrew Sledd.

12 Benediction—Rev. Francis Craighill.

The graduating class consists of seven girls and three boys. A more agreeable class never graduated from any high school. Although in preparation and thoroughness, they are not all that might be desired, they will compare favorably with the graduating class of any other high school in the State. Best of all, they realize their short-comings and deficiencies and are anxious to correct them. They are ambitious for a better education, at least seven of them having expressed the intention of ertering college next fall. They have made a remarkable record in attendance, a record of which the town and the school may justly feel proud. With one exception, not a member of the class has been absent or tardy a time during the term. Unfortunately, duty demanded that one of the class should leave school to accompany a sick relative to New Mexico. Only the call of duty could have drawn him away from school. A better, cleaner young man does not reside in Gainesville. He is justly popular with his class-mates and school mates.

Graduating Class Roll.

The class roll follows: Ethel Harris Durst, Ruth Ellen Doig, Montine Eloise Fagan, Celeta Kathleen Higdon, Irene Erkine Perry, Mary Elizabet Rutherford, Inis Monee Thomas, Richard Dallas Bowers, Casper Smith Peeler, Albert Vidal.

Those graduates not appearing on the program have prepared graduating essays and will read them at chapel exercises during the coming week.

Uncle "Jake" Gleason to Leave.

J. W. Gleason, the popular "old lad" from Jefferson, Ohio, who always makes this city his winter home, is "packing his duds" and will leave tomorrow morning for his Northern home.

Uncle "Jake," as we all know him, is a comical old "duck" and he numbers his friends by the score in this section. He always wears one of those smiles "that won't come off," and he says he has lingered here as long as he can. We know that his Buckeye friends will welcome him on his return, and we trust that he will come back South with the robins.

Isn't there something which only a want ad. can do for you today?

Legislature Pays Tribute to Florida's Dead Senators

TALLAHASSEE, May 15.—In joint session at noon yesterday the House and the Senate, in the hall of the House of Representatives, held memorial services in honor of the memories of former United States Senators Stephen R. Mallory and William James Bryan.

The addresses were most eloquent and the exercises were very impressive.

Among those who spoke were Speaker Farris, President of the Senate Hodson, Senators [illegible] McMullen, McCreary and Beard and Representatives Neeley, Richbourg, Roberson, Godfrey, Blanton, and Alexander.

In the afternoon the House listened to the reading of the special message from the Governor reviewing the Wailes claim and making recommendations concerning it. The message was then referred to a committee of which Representative Malone of Key West was made chairman.

In the morning the House made fair progress in its calendar, passing several bills and killing some others.

MISS EVA POWELL OF ALACHUA FIRST PLACE

MAKES TREMENDOUS GAIN ON CLUB OF YEARLY DAILIES.

Mrs. Ware of High Springs Casts Largest Vote from Outside Sections Friday.

By far the heaviest vote polled in the Co-Operative Contest was cast during Friday, and not only have the candidates in the city received large numbers, but the way in which the country sections have advanced shows that the interest is certainly "keen."

The handsome diamond ring to be given away is now on display in the show window of L. C. Smith and can be seen by all striving to win this handsome prize. The pianos, which will come from the A. R. Harper Piano Company, will be placed on exhibition the first of the coming week. A letter received from Mr. Harper states that he will ship the instruments from his Jacksonville house and they will arrive here at once. The fact that the instruments are purchased from a reliable house which has done business here for many years assures the contestants that they are getting a fine instrument. The instruments carry with them a ten-year guarantee and the promoters of the plan have added a fine stool and scarf with each instrument. Upon arrival they will be placed one each in the Gainesville Hardware Company and the Gainesville Furniture Company windows ready for the inspection of all.

A club of daily subscribers was received from Miss Powell of Alachua Friday, and as a result she has advanced from seventh to first place in the contest. Another big advance has been that of Mrs. I. Ware of High Springs, who also makes a tremendous jump.

Following was the result of the count Saturday morning:

CITY COUNCIL PASSES TWO NEW ORDINANCES

One of the New Laws Prohibits Riders of Bicycles From Using Sidewalks in City Limits.

Council met in regular adjourned session May 14th, with President Broome, Aldermen Burnett, Colclough, Goodwin, Graves, Phifer and Clerk Dell in attendance.

Alderman Burnett moved that the report of the Sanitary committee be received and adopted and sanitary committee be instructed to carry out their recommendations. Carried.

Alderman Graves moved that the complaint of D. M. Dean regarding his taxes be referred to the committee on claims. The Cy Harris tax matter was referred to the mayor, chairman of ordinance and chairman of finance committees to adjust.

Alderman Burnett moved to place Ordinance No. 178, being an ordinance to regulate the use of bicycles, tricycles and similar vehicles, on first reading; carried. The rules were waived and the ordinance passed on its second and third reading, every member voting "I."

Alderman Burnett moved that the matter of Sunday closing be referred to the ordinance committee. Carried.

Alderman Burnett moved that complaint of Mr. Bass be referred to mayor and marshal to remedy.

Alderman Burnett moved that ordinance No. 179, regarding jacks and stallions, be placed upon its first reading. This motion was carried, and the rules were waived and it was advanced to second reading. Alderman Colclough moved that the ordinance be recommitted to the ordinance committee, which was carried.

Alderman Phifer moved to place Ordinance No. 180, being an ordinance to regulate automobiles in the city, on its first reading. This motion was carried and the rules were waived and the ordinance passed upon its second and third reading and become a law.

The ordinance committee to whom was referred the matter of refunding the fine of N. Francisco recommended that same be done, and upon motion of Alderman Goodwin the clerk and treasurer was ordered to draw a warrant for $17.50 out of the Contingent Fund.

Alderman Burnett moved that in case the law and ordinance committee fail to reach a settlement with Mr. Sanchez satisfactory to the council, that city attorney be instructed to proceed in condemnation proceedings, which was carried.

Upon motion of Alderman Burnett, the council adjourned until Tuesday, May 18th, at 8 p. m.

SANITARIUM NOTES.

D. W. Senter, who has been under treatment at the Sanitarium for several weeks, departed for his home in Tennessee a few days since, very much improved in health.

Miss Ruger, of Wisconsin, remains at the Sanitarium, having been at the institution all the winter. Her health is now decidedly better.

Mrs. Dr. McMillan of Morriston arrived during the past week and will remain under the treatment of Dr. DePass until her health is better.

Robert Calhoun of Jersey City was quite ill during the past week, but is now feeling much better. Mr. Calhoun has spent several winters in Gainesville, and the climate always agrees with him.

Mrs. J. E. Sims has recovered and returned to her home in North Gainesville. Her case was very serious and she is to be congratulated on her prompt recovery.

Miss Inez Hunter of Morriston, a recent arrival, is improving rapidly.

Mrs. LaCroix, who was so seriously injured in a runaway some time since, is now able to be up about the house.

Miss Susie Mansell, one of the faithful nurses, is taking a well-earned vacation.

Some article that is simply "in the way" at your house might, if advertised, be sold to someone who is anxiously looking for it.

Three Men Killed, Twelve Injured, by Explosion

KEY WEST, May 15—In an explosion yesterday on the quarter boat No. 3 at Codjoe's Key, twenty miles from here, on the Key West Extension of the Florida East Coast railroad, three men were instantly killed and twelve others badly injured.

The injured men were brought here last night for medical treatment, and it is believed that others were blown to atoms, as 700 pounds of dynamite went off. The injured men are in the Louis Malone Hopital, with Drs. Maloney and Warrent attending them.

Many of the men are Americans. Only meagre reports of the explosion have been received here, and the men are too badly injured to make statements as yet.

DR. YOCUM RETIRES FROM ACTIVE WORK

HIS TEACHING CAREER TO END WITH PRESENT SESSION.

Other Interesting News Notes of the University and Experiment Station.

After many years of faithful service in the educational world Dr. Yocum has retired. At the conclusion of his work this session he will move to his orange grove and live quietly attending to the management of the grove. Dr. Yocum is too well and favorably known throughout Florida to need any eulogy at our hands. All of our readers will join us in wishing him a happy and peaceful life in his new surroundings.

Prof. John S. Thackston has been elected to fill the chair made vacant by Dr. Yocum's resignation. A sketch of Prof. Thackston's educational career will appear in the near future.

The U. D. C. medal was won this year by the University, the essay of Mr. Philip S. May of Quincy being adjudged the best of all submitted. Mr. May's subject was "The Record of Florida soldiers in the Civil War."

Dr. Sledd has been greatly in demand by the authorities of high schools as commencement speaker. He has recently spoken at the closing exercises of the schools in Brooksville and Plant City. Last Wednesday he addressed the high school graduates at Citra. He will make a similar address in Tampa on the 19th, and in Gainesville on the 21st.

A very interesting lecture, illustrated by well-performed experiments and lantern slides, was delivered before the students on Friday evening by Dr. John R. Benton, of the Department of Physics. His subject was "Optical Illusions."

Great interest is being shown by the students in the competition for the medals offered by Major Walker, commandant of cadets. One prize will be awarded to the best marksman, the other to the best drilled cadet in his batallion. The target range is at present one of the most popular places about the University.

The University wishes to thank publicly L. J. Burkhim of Gainesville for his liberality and interest in the institution manifested by the foundation of the Burkhim medal. This prize will go to the student who makes the best average grade for the year, and is open to competition by students in every department of the University.

During the past week the faculty has been honored by invitations to two receptions. Unfortunately the two receptions were on the same evening, and so it was impossible for all the professors to attend both. One was given at the home of Major W. R. Thomas by the Epworth Leaguers, the other was at the home of Mrs. Pitts.

The coming meeting of the Horticultural Society at Daytona will have several of the University and Experiment Station men on the program. Prof. Rolfs will tell "what the Experiment Station Is Doing for the Fruit and Vegetable Growers of the State"; Prof. W. L. Floyd will speak on "Peaches and Deciduous Fruits"; Prof. B. F. Floyd on "Yellow Spotting and Other Diseases of Citrus Due to Malnutrition"; Prof. H. S. Fawcett on Citrus Tree Diseases Caused by Organisms." Several ladies from the University circle will accompany these gentlemen to Daytona.

Prof. B. F. Floyd will make a short visit to DeLand in the interest of his investigations into citrus diseases.

The approaching commencement season bids fair to be extremely interesting. The main addresses by Dr. Dillard and Dr. Curry will probably be above the average. The students are working to make their part a success. It is hoped that the University will be complimented by the presence of many visitors.

Dr. Mahaffy of Jacksonville, the veterinary surgeon of the State Board of Health, is in Gainesville, inspecting the Station cattle for tuberculosis.

The committee from the Legislature to inspect the University and Experiment Station were well entertained by some of the leading citizens of Gainesville. Judge Carter of Marianna accompanied the committee. The investigation was made thoroughly.

NEWS OF CITY AND COUNTY CONDENSED

Mrs. C. W. McDonald has returned from Indian Springs, Ga. She has been spending the past two weeks at that point and was greatly benefited by the trip.

Jack Guthrie has returned to his home in this city after spending the past few weeks at Hawthorn. He has been remodeling and repairing some dwellings on the Fennell place.

Miss Emilina Crews left yesterday for Alachua to spend the next few days with friends. She was accompanied by Miss Beulah Gaskett of Punta Gorda, who has been visiting her here.

Mrs. W. T. Gill of Alachua arrived in the city yesterday and will spend the next few days here visiting relatives. She has recently returned from a visit to West Florida, where she was the guest of her late husband's parents.

HOW TO REDUCE FAT PROPORTIONATELY

Proportion is the thing. A fat woman yearns to reduce her abdomen, but she doesn't want to reduce a scrawney neck. This fact condemns the dieting method of reducing. You can't starve the fat off one place and not off another. Simply impossible. But why try dieting, or even exercising, when there is a better way of reducing fat than either.

Try the following: One-half ounce Marmola, ½ ounce Fluid Extract Cascara Aromatic, 3½ ounces Peppermint Water. Any druggist will fill the above cheaply. Take a teaspoonful after meals and at bedtime and see if in a few weeks you are not losing about a pound of fat a day—not from places where you are normally plump, but from those that are overly fat. The receipt works like a charm, I am told, and though it produces delightfully apparent results, yet it is perfectly harmless. Doesn't even cause wrinkles, they say who have used it, nor interfere with one's diet, which are two other exclusive and important differences it possesses over all other fat reducers I ever heard of. Instead of being harmful, in fact, as so many of the advertised remedies are, it improves the health and appetite and complexion.

The awake person reads the want ads. every day—and answers some almost as often.

AT THE CHURCHES TODAY.

Divine Services Will Be Held at All Places of Worship.

Services will be observed at the various churches of the city today as follows:

First Presbyterian Church, Rev. T. P. Hay—Morning service 10:30; subject, "The Day of Full Disclosure." Sabbath school 4 p. m.; topic, "Iconium and Lystra." Evening service 7:45; letter from our missionary will be read.

First Baptist Church, Rev. S. B. Rogers—Sunday school 9:30 a. m. Preaching 10:30 a. m.; subject, "Conquering Heroes." Junior B. Y. P. U. 2:30 and Senior B. Y. P. U. 6:45 p. m. Evening service, 7:45; subject, "The Credential of Love." Rev. Rogers will preach at Rocky Point in the afternoon.

Advent Christian Church, Elder J. T. Johnson—Rev. James Lee, former pastor here, will fill the pulpit at both services. Rev. Johnson is at Live Oak holding a revival meeting.

First Methodist Church, Rev. F. R. Bridges. The regular service tonight will be in charge of the Senior Epworth League and young people of the church. No League service this afternoon on account of the night service.

Holy Trinity Church, Rev. F. H. Craighill—Fifth Sunday after Easter. Holy communion 7 a. m. Morning prayer and sermon 10:30 a. m. Sunday school 4 p. m. Evening prayer and sermon 7:30 p. m.

St. Patrick's Catholic Church, Rev. P. J. Lynch—Mass will be held at 10 a. m. Devotion of the Holy Rosary at 4 p. m.

FINE GOLD WATCHES.

Watches Given Away by Phifer Bros. Well Recommended.

In another column of our paper will be found a certified statement made by L. A. Jernigan & Son, jewelers, upon the class of watches given away every Saturday evening by Phifer Bros. of the New York Racket to the person bringing the largest amount of trading coupons issued by that firm for every dollar traded.

We have been shown both, one of the ladies' and gentlemen's watches and asked to inspect them thoroughly, which we did. Of course we are not jewelers, nor are we in position to give expert testimony in regard to them, but from our experience with watches we would recommend them as good watches, something that no man or lady would be ashamed to own and a watch that is calculated to speak for the enterprise and progressiveness of the well-known firm for years to come.

All who are fortunate enough to secure one of these valuable watches simply as a premium for trading with the New York Racket, where you always get full value for your money, should consider themselves very fortunate.

Biliousness and Constipation.

For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Stomach and Liver Tablets. The tablets relieve the ill-feeling at once, strengthen the digestive functions, purify the stomach, liver and blood, helping the system to do its work naturally.—Mrs. Rosa Potts, Birmingham, Ala. These tablets are for sale by all druggists.

Marshal Arnow Gets Another.

Marshal Arnow Saturday arrested another negro charged with cruelty to animals. Chas. Elliott, who was driving a horse that could barely creep and looked as if it had not been fed for months, was arrested and tried before Judge Mason, who fined him $5 and costs, which was paid. He will be compelled to properly feed and rest the animal for the next month.

For a burn or scald apply Chamberlain's Salve. It will allay the pain almost instantly and quickly heal the injured parts. For sale by all druggists.

SUNDAY CLOSING IS ATTRACTING INTEREST

THE "BLUE LAW" PROVES UNPOPULAR WITH MANY.

Should Be Regulated in Conformity With State Law, Which Is Liberal.

There is much discussion regarding the Sunday, or "blue laws" passed by the City Council of Gainesville, which, according to many of the leading citizens, discriminates to an unjust extent.

At the request of many, the reporter yesterday endeavored to get the opinions of a few of the business men, as well as citizens, and in nearly every instance the people stated that it was unjust, and was in conflict with the State laws.

P. Miller stated: "We don't want to be placed in a position to violate the Sunday law, but we have good customers who are continually asking us to do little favors that would be in direct violation of the present ordinance. We do not believe in discriminations, but at present it is altogether a discrimination, and a wide one. We have been trying for the past two years to meet the demands of our customers without imposing upon our help on Sunday, and in this we have done the work ourselves rather than compel employes to remain here during any part of the day. For a place the size of Gainesville, we consider that Sunday observance is carried out better than any city in the South, and as a further fact, that we are endeavoring to please only the people, we have discontinued the sale of all of the objectionable matter that is a great source of revenue for other places."

L. C. Smith, the jeweler, said: "Everything should be closed, as it is a violation of Christian or civil law."

J. Manasse: "I think the law discriminates entirely too much. John Alex spent a few dollars and 'busted' it two years ago.'

C. C. Chitty, of H. M. Chitty & Co.: "We believe in the proper observance of the Sabbath, but we do not believe that a person should be deprived of getting any article that he actually needs."

W. B. Taylor, of the Baird Hardware Co.: "I think the law as it was originally passed is all right. It is along the line of the State law and does not prohibit the selling of goods behind closed doors. We will at any time come down and render assistance to any of our customers for any article that is actually needed, as the law was only passed to regulate certain concerns, and the officers are supposed to use discretion in the matter, not only of this ordinance, but all others."

Alderman Goodwin: "I disapprove of the law as it stands and voted against it. A very fair and impartial law was presented which would have allowed some privileges, as all other progressive cities are now doing."

W. W. Avera: "The law as it stands is certainly very discriminating. We are allowed to sell papers, but cannot supply our customers with a cigar, but he may walk on down the street and buy as many as he likes. There are other and more objections, but we look for the council to get together and pass something that would at least be in conformity with the State law along the subject. We know that the present ordinance would not stand, but who wants to be arrested and placed on trial for such a trivial matter."

Dr. Hodges was seen and stated: "Gainesville is becoming a city. I know of no city in the world where a man may not get a cigar, a cool drink or such necessary medicines as he may need on the Sabbath. I think that our Sunday closing law must have been passed without careful consideration on the part of the council, as it seems to be full of discrepancies. I believe in Sunday observance, but I do not believe in fanaticism."

A large number of other citizens were seen, and also the druggists, all of whom claimed that the law was unjust and unfair, as it failed to prohibit the sale, but restricted it to certain parties only.

As an illustration, you can easily buy all you want of a news butch, but you can't buy from one of the stores here handling fruits and candy; you can buy cigars and cool drinks from the restaurant, but you can't buy cool drinks from the founts of the regular stands. You can buy your drugs of the druggists at certain hours, but you can't purchase a cigar, yet you can go to a hotel or restaurant and buy as many as you like. You can rent a horse and buggy to ride as you please, yet you cannot rent a bicycle, and just such complaints as these is what is called the discrepancy in the ordinance.

A public hearing has been asked for and it will probably be granted by the ordinance committee, who will meet the complainants some time during this week and try to adjust the ordinance to at least conform with the State law.

HELEN BOYLE'S ADVICE.

Broken in spirit by her twenty-five year sentence, Helen Anna McDermott Boyle gave out an interesting view this afternoon, says The Baltimore Sun of May 10th. In part she said:

"My mother died when I was a baby. I think there was some fatality about it all. For when she was born, my grandmother gave her to my great grandmother. When my mother died, my grandmother came. They say she looked at her and said, 'Well, you came and you were not wanted, and now here is your baby, and she'll live to see the day she wishes she had never been born.'

"And it's here," she said, rising and walking away to hide the tears. Then she turned sharply. "And now that all this has come to me, I want to say something to the parents of other girls who can make life right or wrong for them," she said. "I had a good home and everything that the average girl has—perhaps more. But I was full of life, full of bubble. I was emotional, I wanted to be petted—to go, to be admired. And my father, who says he loved me more than all the rest of his children, didn't understand. So I left home, and then you know I was pretty. I don't know how it is. My features are far from perfect, but somehow there was something that made men admire me and women hate me. And then the temptations, and the people who kick you down when you are young and helpless and even when you try to do the right thing.

"So I want to say to the mothers and fathers, 'Live with your children, not just for them. Grow up with them again. Do what they want to do. If they want to go out to seek cafes and bright lights and shows, go with them. Don't let them go out much with men alone.

"And if you can't afford to take them, then make it pleasant at home and get them interested in something. And, most of all, don't nag, don't scold—that's awful, awful, awful."

The end of the 1909 legislative session is rapidly drawing near, which causes The Pensacola News to remark: "There is plenty of time to discuss prohibition, but precious little time to get that reapportionment matter straight. As far as we have been able to observe only two State papers have protested against a reapportionment, and both of these papers are published in counties that are proposed to be reduced in representation."

Almost without exception the papers of the State the past week mention the observance of "Mother's Day," as suggested in a proclamation issued by Governor Glichrist designating May 9th as a day upon which to pay tribute to every man's best and truest friend—his mother. It is a new departure in Florida, but should, and doubtless will be observed each year in future.

The Live Oak Democrat thinks that what we need in Florida is not so much a change in the method of enforcing the death sentence from hanging to electrocution, but a more vigorous enforcement of the law that will give us more death sentences to execute. The Democrat is right.

A TIMELY WARNING.

"Tariff reform will not be settled until it is honestly and fairly settled, in the interest and to the benefit of a patient and long-suffering people. The trusts and combinations—the communism of pelf—whose machinations have prevented us from reaching the success we deserved, should not be forgotten nor forgiven."

These words, written by Grover Cleveland in a letter to Mr. Catchings of Mississippi, just after he witnessed the mutilated Wilson bill become a law on August 28, 1894, read almost as if they were penned for use in May, 1909.

Senate Boss Aldrich and the other members of the upper house now engaged in framing a tariff bill may well afford to take a day off and devote it to the reading of this timely warning which speaks like a voice from the grave. Every thought expressed in the quoted paragraph applies to the situation as it exists today. It may well be said, therefore, that it reads as if written for today. And it is within the bounds of possibility that it was.

As Cleveland gave warning, "tariff reform will not be settled until it is honestly and fairly settled." If Aldrich and his gang does not revise the Dingley tariff that way—"honestly and fairly"—it will not have been "settled" at all.

In other words, if the tariff isn't revised "honestly and fairly, in the interest and to the benefit of a patient and long-suffering people," it will have to be done over again.

As to the trusts and combinations, Mr. Aldrich seems to have "forgiven" them, but not to have "forgotten" them. Every revision of the present tariff law appears to have been upward and of a character commended by the trusts. On the whole it is only too plain Senator Aldrich does not intend to "settle" tariff reform, within the meaning of the Cleveland letter. He refuses to heed the warning.

A great candle that will burn four years and seven months, claimed to be the largest ever manufactured, is to be enshrined at the birthplace of Joseph Petrosino in Italy, says The Popular Mechanics for June. Petrosino was assassinated while on a secret mission to Sicily for the United States. The candle is nine feet high, three and a half feet in circumference, and weighs 178 pounds. It is almost covered with 14-carat gold leaf, and its composition is Austrian beeswax, to which a substance has been added to retard combustion. The cost of the candle was about $400, and it is the present of the manufacturer, in whose home Petrosino lived when a boy.

From expressions in the current issue of The Crystal River News we judge that town is experiencing a touch of Sunday closing as well as some other places we know. Be patient, brother—you'll become accustomed to it after awhile.

The Ocala Banner says a twenty-six-pound melon is on exhibition at the Ocala House, and adds, "Remember that it was pulled before the middle of May."

Leaving Senator Beard and Representative "Jeems" Alexander out, the proceedings of the present session of the Legislature would be of a rather tame nature.

A system of good roads throughout Alachua county would be the means of bringing hundreds of new settlers to this section.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address,

THE WIRZ MONUMENT.

Discussing the unveiling of the monument erected to the memory of Major Wirz at Andersonville, Ga., last Tuesday, The Savannah News says:

"The memorial stands where Major Wirz gave his best efforts for the cause of the South and the cause of humanity. The fortunes of war made him a military prison-keeper. In that position he strove to the best of his ability, and against tremendous and overwhelming odds to discharge his duty in fairness and justice to every person and interest concerned. No man could have done better than he did with the means at hand, and many a man would have done not so well. During the great struggle and for a time thereafter the North regarded Major Wirz as almost a fiend incarnate, placing upon his shoulders all of the blame for the suffering of the federal prisoners. But the people of the North are now coming into a different view of the situation at Andersonville as it was in the sixties, and are beginning to realize that Wirz was a true soldier and a tender-hearted gentleman who suffered martyrdom for no fault of his own."

SOFTNESS OF SEALSKIN.

Is Rivaled by Human Hair Where Dandruff is Eradicated.

Sealskin is admired the world over for its softness and glossiness; and yet the human hair is equally as soft and glossy when healthy; and the radical cause of all hair trouble is dandruff, which is caused by a pestiferous parasite that saps the vitality of the hair at its root. Newbro's Herpicide is the only preparation that is fatal to the dandruff germ. Without dandruff there is no falling hair, but a luxuriant growth of glossy, soft hair is certain. Scouring the scalp won't cure dandruff. Kill the dandruff germ. Thousands of women owe their beautiful suits of hair to Newbro's Herpicide. Sold by leading druggists. CLOSING EXERCISES OF THE ARCHER SCHOOL

DELIGHTFUL PICNIC WAS TENDERED PUPILS BY PATRONS.

Rev. Mr. Newman Presented Diplomas to Four Young Ladies. A Most Successful Term.

ARCHER, May 15.—The Archer school closed May 14th with a charming picnic at Blue Fete. Here, a glade under the great oaks, had been enlarged, making an ideal place for a picnic.

The commencement exercises were most unconventional. A slight rise of ground made a natural stage where the graduating class were seated between two large oaks, the younger children being in a semi-circle on the ground at their feet, while the others sat or stood near them. The few numbers of the program were not announced but seemed to follow each other naturally. All the school sang "Florida, My Florida," after which C. W. Baldwin gave a short address on education and introduced the Rev. Mr. Newman, who, in a feeling and eloquent manner presented the diplomas to the graduates, Misses Grace Hughes, Lola Tuten, Sella Anderson and Mary Frei. Walter Dewell was also mentioned as one who would have graduated but for an unavoidable absence from school the last few weeks, but who will be also entitled to his diploma when he will have made up the work.

After the presentation of diplomas a group of little girls came trooping in from the woods singing a flower song and crowned the lovely girl graduates with the flowers they carried.

The principal, Mrs. Charlotte M. Baldwin, with a few well-chosen words and in her usually pleasing manner, thanked the patrons and pupils and explained her idea of having a simple commencement in Florida and that the whole thing had been kept a secret from the graduates themselves that no elaborateness of preparation might be allowed.

The dinner was a Florida picnic dinner. Can more be said? It was perfect. The presence of the photographer called for a picture of the dinner table, the school, the graduating class, etc.

After dinner many games were played by old and young alike. Mr. Venable, one of the trustees, showed that no one could give him any points on the play ground. One busy man of Archer said he had not done so much hard work this year. Many of the ladies distinguished themselves at play and proved a good match for the young men.

Chairman J. K. Tuten was everywhere about the grounds helping or giving directions. Geo. Fleming, the other trustee, was also present and did all in his power to make everyone have a good time.

It was a perfect day, and many two-horse teams carried the crowd of jolly, singing children and young people to their homes.

The school has been under the direction of Mrs. Baldwin the past term ably assisted by Miss Florence Baldwin and Miss Mary Berkstresser. Many expressions of approval and good will towards the teachers were heard on every hand, this, in the opinion of all, having been one of the most successful terms the school has known.

NEEDFUL KNOWLEDGE

Gainesville People Should Learn to Detect the Approach of Kidney Disease.

The symptoms of kidney trouble are so unmistakable that they leave no ground for doubt. Sick kidneys excrete a thick, cloudy, offensive urine, full of sediment, irregular of passage or attended by a sensation of scalding. The back aches constantly, headaches and dizzy spells may occur and the victim is often weighed down by a feeling of languor and fatigue. Neglect these warnings and there is danger of dropsy, Bright's Disease, or diabetes. Any one of these symptoms is warning enough to begin treating the kidneks at once. Delay often proves fatal.

You can use no better remedy than Doan's Kidney Pills. Here's Gainesville proof:

Mrs. James Doig, 902 Alachua avenue, Gainesville, Fla., says: "It is now some time since I used Doan's Kidney Pills and I am glad to say that I have had no need of a kidney remedy. Several years ago Doan's Kidney Pills drove away a severe attack of kidney trouble and time has proven the cure to be a permanent one. I take pleasure in recommending Doan's Kidney Pills to other kidney sufferers."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

LETTER TO E. J. BAIRD,

Gainesville, Florida.

Dear Sir: Clear pine and pine full of knots are two different things; they are both called pine.

Clear paint and paint adulterated with whiting, china-clay, ground stone, bartyes, benzine and water, are different things; they are both called "paint."

It takes less labor to work clear pine than pine knots, and costs less money.

It takes less labor to paint clear paint than half-whiting or half china-clay or half ground stone or half bartyes. These mixtures make more gallons, not more paint. There's no more milk in two quarts of milk-and-water than in one quart of milk. If you paint two gallons for one you pay double for labor; and labor costs more than paint.

You know how it is with clear lumber and knots. It's the same with all paint and half-paint.

A day's work is a gallon of paint or half-paint.

Apply it to business. Suppose you have two houses, same size; paint one Devoe, the other prominent paint in your town.

It takes 10 gallons Devoe, $1.75 a gallon, $17.50 for paint; $3 a gallon for labor, $30 for labor; whole job, $47.50.

It takes 15 gallons of that other paint, same price, $26.25 for paint; $3 a gallon for labor, $45 for labor; whole job $71.25.

And which wears best, clear pine or pine knots? Devoe wears better than that weak paint.

What warrant is there for saying that paint is weak? It takes more gallons. Yours truly,

84 F. W. DEVOE & CO.

P. S.: The Gainesville Hardware Co. sell our paint.

If it's printed stationery you want The Sun office is the place to get it.

RAN OVER LITTLE CHILD.

Marshal Arnow Arrests Granger of Melrose for Drunkenness.

Marshal Arnow last night arrested a white man by the name of Granger, who resides in the eastern part of the county, upon a charge of being drunk.

It developed that Granger was the man who late Saturday afternoon ran over Inez, one of the little girls of J. B. Brooks, and badly injured her. She, in company with some other children and a nurse, were on Magnolia street and the man, galloping at a fast rate of speed, ran completely over the child, injuring and bruising her considerably.

He made no attempt to stop and pick up the child or offer any asaist ance, but the matter was reported to the chief, who at once got busy and placed Granger under arrest.

Chamberlain's Liniment.

This is a new preparation and a good one. It is especially valuable as a cure for chronic and muscular rheumatism, and for the relief from pain which it affords in acute inflammatory rheumatism. Those who have used it have invariably spoken of it in the highest terms of praise. Lame back, lame shoulder and stiff neck are due to rheumatism of the muscles, usually brought on by exposure to cold or damp, and are quickly cured by applying this liniment freely and massaging the affected parts. Soreness of the muscles, whether induced by violent exercise or injury, is allayed by this liniment. For sale by all druggists.

Funeral of James Pardue.

The funeral services of the late James Pardue will be held from the home of his son-in-law, N. Wells, in North Gainesville, this afternoon at 2:30 o'clock. Rev. S. B. Rogers of the First Baptist church will conduct the services.

The pall-bearers will be selected from the old Confederate veterans, deceased being a member of Stonewall Camp, and the remains will be in charge of the Thomas Undertaking Company.

Friends of the family are invited to attend the services at the home.

A Living Skeleton

Is the final condition of any child that has worms—if it lives. Think of having something in your stomach that eats all you take as nourishment. Nine-tenths of the babies have worms—maybe yours has. Be certain that it has not by giving it White's Cream Vermifuge—it expels all worms and is a tonic for the baby. Price 25 cents. Sold by W. M. Johnson.

The Children's Brigade.

The regular meeting of the Children's Brigade will be held this afternoon at 2:30 at the church. This is mite box opening day, so let all the members of the Brigade and all on the Baby Roll remember to bring or send their mite boxes.

BETTER THAN SPANKING.

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W, South Bend, Ind., will send free to any mother her successful home treatment, with full instructions. Send no money but write her today if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

S.S.S.
CURES BLOOD POISON

Removing the symptoms is not all that is necessary to cure Contagious Blood Poison. The virulent germs which produce these outward manifestations must be completely driven from the blood before a real cure can be effected. The least taint left in the circulation will, sooner or later, cause a fresh outbreak of the trouble, with all the hideous symptoms of ulcerated mouth and throat, copper colored splotches, falling hair, sores and ulcers, etc.

Contagious Blood Poison is the most treacherous of all diseases. It has its victims in its power almost before they realize its presence, because its first symptom is usually a little sore or pimple so insignificant that it does not excite suspicion. But the insidious poison is at work on the blood and in a short while the patient finds he is more or less affected from head to foot.

Contagious Blood Poison is too dangerous to trifle with. No time should be lost in ridding the blood of this destructive poison, and in no disease is it more important to have the proper remedy. Medicines which merely check the symptoms for a time and leave the real cause smouldering in the system have brought misery and disappointment to thousands. Faithfully the sufferers took such treatment, usually of mineral nature, and when all symptoms had disappeared and the treatment was left off, found the virus had only been shut up in the system awaiting a favorable opportunity to return, with every symptom intensified.

S. S. S. cures Contagious Blood Poison and cures it permanently. It goes down into the blood and removes every particle of the poison, makes the circulation pure and healthy, and does not leave the slightest trace of the disease for future outbreaks. S. S. S. is made entirely of roots, herbs and barks, all of which are healing and cleansing in their nature. It does not contain a particle of mineral in any form to injure the delicate parts of the system. S. S. S. will also drive out any lingering remains of mineral poison that may be in the blood from the former treatment. If you are suffering with Contagious Blood Poison S. S. S. will cure you, because it will purify your blood. Home treatment book and any medical advice free to all who write.

CURED SOUND AND WELL.

Dear Sirs:—I didn't find out that I had contracted Contagious Blood Poison until it had made considerable headway, and fortunately for me the friend that I first consulted had had some experience with the disease, and advised me to take S. S. S., so I didn't fool with any doctors, but began at once the use of your medicine, taking it as directed. My friend told me to stick to it, and that was what I did and got along splendidly from the very first, and my recovery was rapid. I took a number of bottles, and am now as well as ever. When I began S. S. S. my face was so full of sores and eruptions that I could not shave, and now there is not a blotch or pimple on my body. There is nothing in the world that can beat S. S. S. for Blood Poison, and I always recommend it for such cases. A friend of mine is taking it now, and is getting along nicely.

COVERED WITH SORES.

I was afflicted with a terrible blood disease, which was in spots at first, but afterwards spread all over my body. These soon broke out into sores, and it is easy to imagine the suffering I endured. Before I became convinced that the doctors could do me no good, I had spent a hundred dollars, which was really thrown away. I then tried various patent medicines, but they did not reach the disease. When I had finished my first bottle of S. S. S. I was greatly improved, and was delighted with the result. The large red splotches on my chest began to grow paler and smaller, and before long disappeared entirely. I regained my lost weight, became stronger and my appetite greatly improved. I was soon entirely well, and my skin as clear as a piece of glass.

THE USUAL SYMPTOMS.

Having used S. S. S. quite extensively, I am in position to know its virtues. As the result of a serious blood disorder my blood became poisoned and I suffered severely with Rheumatism and other symptoms not necessary to mention. A friend told me he had been cured of my trouble by S. S. S. and upon his recommendation I began its use. After using it for some time my blood was thoroughly cleansed of all poisons and made pure and strong again.

I wish also to speak of its tonic properties. It built up my general health, it improved my appetite, gave me increased strength, and I felt better in every way. I am a great believer in S. S. S., and with pleasure recommend it to all who need a good blood medicine. ROBERT M. ZWEITZIG.

MARSHAL ARNOW GETS "TIGER" SATURDAY

EMANUEL JOHNSON WAS CAUGHT WITH GOODS ON HIM.

Has Long Been a Suspect But Was Always Very Clever in His Dealings.

Marshal Arnow is active after the "tigers" with the result that he landed another with the goods on him and relieved him of seven pints of "booze" Saturday night.

Emanuel Johnson was the negro. He has been suspected for some time but it was not until Saturday night that he was caught in the act of selling liquor.

Marshal Arnow was laying in wait and watching him when he saw Johnson deliver to a white man "a pint" and receive the money, after which he made the arrest and upon searching his wagon the marshal found that it contained seven pints of various brands of whiskey.

The negro was placed in jail and will be given a preliminary hearing before Mayor Davis Monday.

Whooping Cough.

This is more dangerous disease than is generally presumed. It will be a surprise to many to learn that more deaths result from it than from scarlet fever. Pneumonia often results from it. Chamberlain's Cough Remedy has been used in many epidemics of whooping cough, and always with the best results. Delbert McKeig of Harlan, Iowa, says of it: "My boy took whooping cough when nine months old. He had it in the winter. I got a bottle of Chamberlain's Cough Remedy which proved good. I cannot recommend it too highly." For sale by all druggists.

Mayor's Court Saturday.

There were two cases before Mayor Davis on Saturday morning as follows: Pate Sims, white, drunk and disordedly fined $10 and costs.

G. M. Kite forfeited a cash bond of $25 for carrying a concealed weapon, a fine 38-calibre pistol.

If you want to feel well, look well and be well, take Foley's Kidney Remedy. It tones up the kidneys and bladder, purifies the blood and restores health and strength. Pleasant to take and contains no harmful drugs. Why not commence today? J. W. McCollum & Co.

An African and a Boa Constrictor.

At M'Geta, German East Africa, a native who, like all those belonging to the tribe of the Waluguru, regarded snake flesh as an especial delicacy found a huge boa constrictor lying in the middle of a field. He confided the discovery to one or two others and arranged with them to kill it during the hours of darkness, so that they might enjoy the delicacy together. Toward nightfall the man, armed with a stick, attacked the huge serpent. The boa constrictor, aroused from its apparent torpor, suddenly seized the unhappy negro and slowly crushed him to pulp and then gradually swallowed him.

LIGHT WITHOUT HEAT

The Puzzle of the Tiny Firefly and the Mighty Comet.

EACH HOLDS THE SECRET.

It Is a Mystery to Science, and the Man Who Is Able to Penetrate That Mystery Will Be In a Position to Revolutionize This Planet of Ours.

This is not an Aesop fable, although it has a moral.

There are two things in whose presence science stands wondering and abashed—the little glowworm (or the yet tinier firefly) and the mighty comet arching the sky with its shimmering train. Each of them holds the same secret—how to make light without heat. The man who gets that secret will revolutionize the planet.

The late president of the Royal Astronomical Society of Great Britain referred to the value of the comet's secret in his retiring address. He thought that we do not sufficiently appreciate the wondrous spectacle of a comet's tail. It shows us hundreds of billions of cubic miles of space simultaneously glowing with luminosity whose origin is a mystery.

It is a gigantic experiment in a branch of physics of which we as yet know very little. The comet is immersed in what we may well regard as a vacuum; at least it is a far more perfect vacuum than we can produce. Yet the persistent glow of the comet's tail shows that there is no real vacuum there, but a vast quantity of extremely attenuated matter which no doubt is the cause of the luminosity.

We ought, Professor Newall thinks, to awake to the importance of this hint. "Who knows," he says, "whether, if we could discover a method of disrupting gases and vapors in ultra vacuous spaces artificially maintained on earth, we should not have a method of artificial illumination as economical as that of the glowworm and as brilliant as is needed for our nocturnal life?"

This thing may really be within our reach, although at the present time we cannot even suggest to ourselves exactly how it is to be attained. But the tendency of recent investigation is in that direction. As Sir John Herschel said of another discovery which was just at the door, "We can feel it trembling along the farreaching line of our analysis."

There are not a few men, who are regarded by their harder headed scientific brethren as "dreamers," who picture to themselves a fast coming time when we shall not only obtain light at as cheap a rate as the firefly has it, but when we shall have tapped the exhaustless stores of energy that sleep all around us in nature.

We are like one in a dream suspended in the midst of a vast workshop crowded with multitudinous machines, all whirling and fluttering in a storm of energies, but which he can neither control nor understand. If we could see these things they might terrify us, as the dreamer is terrified by the whirring belts and spinning wheels of his vision, seeming to grasp at his life.

If the scientific investigator needs to establish a raison d'etre in the eyes of the public, which cannot follow either his processes or his results, he has only to point to the fact that the greatest practical discoveries of modern times have come out of the laboratories from things as incomprehensible to the unitiated as so much magic. It is a well known fact that the growing might of Germany springs from her devotion to "pure research."

Referring again to the pregnant hint of the comet, Professor Newall is clearly right in saying, "Here is a theme that should stir up the most commercial mind in the support of astronomy."—Garrett P. Serviss in New York American.

On the Cars of New York.

The surface cars of New York carry on each line as different a nationality as if each belonged to a different country. On the Eighth avenue line there are mostly colored people; on the Sixth avenue they are largely Americans, if there are any Americans in New York; on the Broadway cars there are stylishly dressed New Yorkers; on the Third avenue Irish and Jewish people predominate, on the Second avenue Jewish, Italian, Hungarian, Swedish and German, while on the surface cars that run along Avenue A you see every foreign nationality under the sun, all bareheaded.—New York Press.

TRAPPING RABBITS.

The Australian Method of Dealing With the Pests.

Rabbits are the greatest pest the Australian pastoralist has to contend against. If these rodents are at all numerous on a station property, they do enormous damage to the grass, but the pest is kept down to the lowest possible limit in every district of the commonwealth at great cost.

The most effective method of dealing with them is hereunder explained

In summer when any water that might have been lying about has been dried up by evaporation and the grass has become dry rabbits swarm toward the tanks, dams or other water holes that have been sunk for stock drinking purposes.

Pastoralists take advantage of this, and every evening after the cattle have partaken of their last drink a strip of wire netting is run around the tank or dam.

Outside this netting fence holes are dug in the ground and filled with poisoned water, and these in turn are inclosed by another strand of netting, pegged down to within a few inches of the ground, being sheep proof, but allowing plenty of room for rabbits to get under.

The rabbits make for the dam; but, as their way is barred, they drink at the poisoned holes, with to them disastrous results.

In the morning are to be seen hundreds and thousands of dead rabbits scattered about the country.—Melbourne News.

WALL STREET WAYS.

Methods of a Brilliant Operator of Many Years Ago.

One of the most brilliant operators of Wall street in the early sixties of the last century was Walter W Ilman Morse, though he was by comparison with some of the gray haired market veterans only a mere boy, being just thirty years of age. The public confidence he enjoyed made it possible for him to realize profits in any stock.

Such was the influence his indorsement would carry that after he had accumulated stock at his prices he could tell his daily callers that the stock was due to go up, and immediately there would be enough professional and public buying of the stock to send it up, thus enabling Morse to unload at a profit.

An example of Morse's popularity was illustrated in a scene accompanying the opening of subscriptions for stock in a coal mining company organized by him. The day the subscription book was opened people flocked to the office and fought with each other in their efforts to enter and get their names recorded. One man who had subscribed for a large amount of this stock, after getting away from the crowd, came back and, walking up to Mr. Morse, said, "I say, Mr. Morse, was that gold or coal stock I subscribed for?"—Moody's Magazine.

P'RDS AS SCOUTS.

A Gypsy's Warning Before the Battle of Sadowa.

During the night, July 2-3, before the battle of Sadowa, a division commanded by the archduke, retreating before the Prussian army, had bivouacked near a town in Bohemia facing north.

At midnight the archduke, when resting in a peasant's cottage, was awakened by the arrival of a gypsy, who insisted on seeing him personally, having come to report the advance of the enemy.

The archduke, who spoke Romany fluently, asked: "How do you know? Our outposts have not reported any movement."

"That, your highness, is because the enemy is still some way off."

"Then how do you know?"

The gypsy, pointing to the dark sky lighted by the moon, observed, "You see those birds flying over the woods from north to south?"

"Yes. What of them?"

"Those birds do not fly by night unless disturbed, and the direction of their flight indicates that the enemy is coming this way."

The archduke put his division under arms and re-enforced the outposts, which in two hours' time were heavily attacked.—Field Marshal Sir Evelyn Wood in London Saturday Gazette.

Origin of Surnames.

Surnames were introduced into England by the Normans and were adopted by the nobility about 1100. The old Normans used Fitz, which signifies son, as Fitzherbert. The Irish used O for grandson—O'Neal, O'Donnell. The Scottish highlander used Mac, as Macdonald, son of Donald. The Welsh used Ap, as Ap Rhys, the son of Rhys, Ap Richard. The prefix Ap eventually was combined with the name of the father; hence Prys, Pritchard, etc. The northern nations added the word son to the father's name, as Williamson. Many of the most common surnames, such as Johnson, Wilson, Dyson, Nicholson, etc., were taken by Brabanters and others, Flemings, who were naturalized in the reign of Henry VI. 1435.

YOUR BACKACHE WILL YIELD

To Lydia E. Pinkham's Vegetable Compound

Rockland, Maine.—"I was troubled for a long time with pains in my back and side, and was miserable in every way. I doctored until I was discouraged, and thought I should never get well. I read a testimonial about Lydia E. Pinkham's Vegetable Compound, and thought I would try it. After taking three bottles I was cured, and never felt so well in all my life. I recommend Lydia E. Pinkham's Vegetable Compound to all my friends."—Mrs. WILL YOUNG, 6 Columbia Avenue, Rockland, Me.

Backache is a symptom of female weakness or derangement. If you have backache, don't neglect it. To get permanent relief you must reach the root of the trouble. Nothing we know of will do this so safely and surely as Lydia E. Pinkham's Vegetable Compound. Cure the cause of these distressing aches and pains and you will become well and strong.

The great volume of unsolicited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has restored health to thousands of women.

Mrs. Pinkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health free of charge.

BEAVERS' HOMES.

How the Ingenious Little Builders Construct Their Houses.

When the beavers' dams are completed, the animals separate into small companies to build cabins or houses for themselves. These are constructed upon piles along the borders of the pond. They are of an oval shape, resembling a beehive, and they vary from five feet to ten feet in diameter, according to the number of families they are to accommodate.

These dwellings are never less than two stories high, generally three, and sometimes they contain four apartments. The walls of these are from two feet to three feet thick, formed of the same materials as the dams. On the inside they are made smooth, but left rough without, being rendered impenetrable to rain.

The lower story is about two feet high, the second is formed by a floor of sticks covered with mud, and the upper part terminates with an arched roof. Through each floor there is a passage, and the uppermost floor is always above the level of the water. Each of these huts has two doors, one on the land side to admit of their going out and seeking provisions that way, another under the water and below where it freezes to preserve their communication with the pond.—English Magazine.

FLOATIING A WHALE.

Inflating the Monster Carcass to Keep It on the Surface.

"Then began the work of bringing the whale to the surface and blowing it up so that it would float," says a writer on whaling in Popular Mechanics. "Taking a hitch about a convenient post, the rope was slacked and run through a pulley block at the masthead to relieve the strain of raising the great body. The winch was set in motion, and for fifteen minutes nothing was heard save the monotonous grind as fathom after fathom of line was wound in. When the body was brought alongside the lobes of the flukes were cut off and lifted to the deck. Then a long coil of small rubber hose, one end of which was attached to a pump and the other to a hollow, spear pointed tube of steel with perforations along its entire length, was brought into play. The spear was jabbed well down into the whale's side, the air pump was started, and the body slowly filled with air. When inflated sufficiently to keep it afloat, the tube was withdrawn, the incision plugged with oakum and the chains cast off. A buoy with a flag was then attached to the carcass and the whole set adrift to be picked up at the end of the day's hunting."
